# Risk Management Report

| Risk forecasted in planning | How it was handled/mitigated |
|---|---|
| Leaving a member from project team | To mitigate risk that project is left unfinished, we chose a leading and aiding role for each delivery. Thus, if a person leaves the team, he or she will replace someone who knows his work. |
| Users cannot use the program | We planned to give seminars to teach users how to use our program for mitigate this risk. |
| The member encounters any problems with his/her account. | We handled this risk with adding a button such as "Communication with the librarian". We added it as a use case for a member. With this button, member contact with the librarian, if anything goes wrong. |
| Missing deadline | For handled this risk, we set another deadline in the project team. Thus, we will be ready before the deadline we determined with the customer. |

| Risk not forecasted in planning | How it was handled/mitigated |
|---|---|
| Lack of communication between project team | To mitigate this risk, we meet right after the new assignment is made. |
